ALEXANDRIA.

The City Has Quieted Down-Political.

ALEXANDRIA, VA., August 10 .- (Spe cial.)-Alexandria has resumed its normal quiet after the disorderly and riotous scenes of the past few days. The usual reaction has set in, and citizens generally are deploring the affair of Tuesday night, when the negro Benjamin Thomas was dragged from jall and hung from a lamp-post. Mayor Simpson expresses a willingness to prosecute any of the ringleaders who may be pointed out, but thinks that will be impossible to establish their identity. The negroes have remained per-fectly passive since the lynching. Not a threat from them has been heard.

Captain King's men were under arms until an early hour this morning. With Richmond last evening the Alexandria Light Infantry is now fully equipped. No one however, seriously expects any fur-

Myers, living at Santa Fe Springs, began sinking an Artesian well. Others in the neighborhood had successfully tapped a subterreanean flow at depths of from 300 to 400 feet, and Mr. Myers hoped for a successful issue to his enterprise. By slow stages the drill descended until a depth of 300 feet was attained. This was on Sunday May 14th. A drill 200 nounds. on Sunday, May 14th. A drill 200 pounds in weight was employed, and the prospect of tapping a good flow of water was be-coming more and more encouraging. A 10-inch pipe had been sunk some distance,

The heavy drill was working with its usual monotonous regularity, when, after one deep plunge, a loud roaring sound was heard coming from the well, accom-panied by jets of muddy water and the outburst of heavy stones. Soon after the drill itself made its appearance, followed by a grand column of water which forced itself higher and higher until the top reached an elevation of 500 feet. The flow was accompanied by vast quantities a hamlet located in the neighborhood of Los Angeles.

column of muddy water was like a great pillar extending almost to the clouds, and falling back to earth again in graceful failing back to earth again in graceful festoons. The force exerted was equal to a thousand power-ul engines. For two weeks this phenomenon has been active, though some diminution of the force exerted is beginning to be apparent. The flow of water is enormous, and, the country being flat, some difficulty is apprehended in its control.
